

WHY WHEY?

Quality - Naturally.

Whey protein contains all of the *essential amino acids* your body needs. It's easy to digest and *absorbs* into your body *faster* than other sources of protein. The quality of protein is measured by its **BIOLOGICAL VALUE** and **PROTEIN EFFICIENCY RATIO**.

Proteins are NOT created equal...

Whey your options:

WHEY PROTEIN CONCENTRATE

THE FIRST LEVEL OF WHEY REFINEMENT

70-80%

PURE PROTEIN

- A little lactose <5%
- A little fat
- A little cholesterol
- Lower quality = less expensive

Did you know?

WHEY PROTEIN ISOLATE

SUPPORTS:

- Immunity
- Endurance
- Strength
- Recovery

WHEY PROTEIN ISOLATE

THE NEXT LEVEL OF WHEY REFINEMENT INVOLVES MICROFILTERING OUT THE IMPURITIES

90-95%

PURE PROTEIN

GO BODY®, a healthy lifestyle brand uses only **WHEY PROTEIN ISOLATE** because it contains virtually:

- NO LACTOSE
- NO FAT
- NO CHOLESTEROL

- WPI:**
- Tastes better
 - Contains the highest known levels of Branched Chain Amino Acids (BCAA)
 - Higher quality = more expensive

Choose the best hydrating protein drink that chooses **THE BEST WHEY.**
